Front End Fundamentals,
2019

UNIVERSITY OF TORONTO

Double Major in English & History,
2014 - 2020

PROFILE

I'm an enthusiastic, detail-oriented web developer based in Toronto. My priorities as a developer are straightforward, with accessible, reliable, and succinct code setting the bar for how I measure my success. Additionally, my background in writing brings strong collaboration and communication skills to the table.

PROJECTS

FRIDGE VERSES ([GITHUB](#))

HTML, SCSS, API, React, Axios, Firebase

- This sleek single-page application helps you create and share fridge-magnet poems based on your chosen topic

HUNGRY? ([GITHUB](#))

HTML, SCSS, API, JavaScript, jQuery

- This tool recommends restaurants based on Yelp reviews
- View data and ratings for all restaurants in one place

RIDER RADAR ([GITHUB](#))

HTML, CSS, API, React, Axios

- This single-page application displays Bike Share Toronto station data for stations near you and your destination, simplifying the trip planning process

WORK EXPERIENCE

MEDIA COORDINATOR

International Development and Relief Foundation, 2019

- Organized thousands of historical photographs and literature to create a cohesive filing system
- Digitized all documents to aid in the creation of a documentary

ACADEMIC WRITING ASSISTANT

University of Toronto, 2014 - 2020

- Assisted graduate students with writing and research
- Worked directly with clients to achieve a minimum grade of 90% or above
